

SDP Priorities 2023-24

- 1. Developing learner effectiveness where pupils actively participate in their own learning and personal development.**
- 2. To develop the teaching of mathematics across the school to ensure pupils have a good understanding of the 5 Mathematical Proficiencies.**

A). To ensure that the planning and teaching and in the area of Mathematics and Numeracy sets high expectations of learners and supports a positive disposition.

B.) To ensure teaching and learning is built upon the five proficiencies so that learners develop a deep understanding of mathematical concepts, which are taught through relevant and purposeful contexts providing opportunities to make progress and make connections with the world around them.

- 3. To develop Welsh language oracy skills across the school**
